Summary

We spent 8 hours reading reviews from experts and users. In summary, this is what runners think:

8 reasons to buy

- Some users appreciated the Brooks Ghost 10's high-performance construction.
- A lot of testers with foot issues were happy that the shoe did not cause foot pain.
- There were people who recognized the above average shock absorbing capacity of the midsole.
- A majority of users stated that the shoe felt very comfortable.
- Based on a number of reviews, the sole unit felt sturdy yet comfortable and less bouncy.
- Some narrated that they felt like they were running on clouds or air with the shoe on.
- Most runners mentioned that the shoe felt like it was well made.
- Reviewers appreciated the inclusion of a shoelace holder at the top of the tongue.

6 reasons not to buy

- One person observed the sole unit coming loose after only wearing it four times.
- Some reviewers reported that the underfoot platform was too low to the ground and that the quality of cushioning was sacrificed.
- Someone was unhappy about not getting enough arch support from the shoe.
- Another tester noticed that the sides and top of the shoe were starting to deteriorate after merely two weeks of use.
- There was a reviewer who revealed that the shoe did not have an effective grip on wet surfaces.
- A few runners said that the quality of the shoe is poor.

Bottom line

The Brooks Ghost 10 is a neutral road running shoe that delivers both comfort and performance. It's an ideal shoe for light training, tempo runs, long runs, and everyday use. Possessing minor yet significant updates from its predecessor, it brings runners a more cushioned, smoother, and adaptive ride.

Reviews and Ratings

Good v Bad Reviews

Conclusion

1. There is a correlation between number of reviews and ratings.
2. A 'Comfortable fit' is an important feature for a good rating.
